Private Chef & High-Performance Meal Prep

Prepared by Sean · October 2026

Who you are, and what you really sell

IDENTIFIED NICHE

Private Chef & High-Performance Meal Prep

HIDDEN TRANSFORMATION

Turning busy, health-conscious people from frustrated daily cooks into **confident home chefs** who prep vibrant, athlete-grade meals in under two hours a week.

I analyzed your content and provided data. Here is what the numbers say:

THEME 1

Pro-Athlete Client Prep Showcases

18.3M

views across two reels

Observed Engagement: 10,581,736 views and 679,316 likes on your full client prep reel, plus 7,674,885 views and 556,054 likes on your athlete prep breakdown.

Your audience is captivated by how private chefs organize, flavor, and pack elite food for top performers.

SALES POTENTIAL

HIGH

THEME 2

Chef Technique & Execution Tutorials

4.4M

views on one masterclass

Observed Engagement: 4,431,481 views, 223,302 likes, and 2,066 comments on your cast-iron steak masterclass.

Your audience does not just want recipe ideas. They want your exact method to stop ruining expensive proteins and achieve restaurant crust at home.

SALES POTENTIAL

HIGH

THEME 3

High-Protein Snacks & Grab-and-Go Fuel

4.9M+

views combined

Observed Engagement: Over 4.9M views and 317,000+ likes combined across your snack and breakfast prep reels (protein muffins, granola clusters, overnight oats).

Strong engagement for quick-fuel staples that remove weekday friction.

SALES POTENTIAL

MEDIUM

VERDICT

The engagement on your pro-athlete meal prep proves there is massive pent-up demand.

Your followers do not just want casual Substack recipes. They want the **complete private chef system** to cook high-flavor, nutritious food without spending all week in the kitchen.

Here is how much your audience is potentially worth

The Revenue Potential, based on conservative market metrics.

THE MATH

Conservative (10%)	57,899 engaged fans × 10% × \$200	= \$1,157,980
Optimistic (15%)	57,899 engaged fans × 15% × \$200	= \$1,736,970

REVENUE POTENTIAL

~\$1,157,980 – \$1,736,970

Based on these numbers, your content has a Revenue Potential of **\$1.15M – \$1.73M** waiting to be unlocked with a single dedicated product.

Option 1: The Private Chef Prep System

THE BIG BET

Crossing what your content demonstrates with what your audience shows it wants, here are 3 profitable paths.

1

What It Is

A complete video course and operational blueprint teaching home cooks how to batch-prep 15+ athlete-level meals in one two-hour kitchen block, using professional kitchen workflows, marinades, and storage secrets.

2

For Whom

Busy professionals, fitness enthusiasts, and parents who love great food but spend hours cooking every night or settle for dry, boring meal prep.

3

Why It Will Sell

Solves the core frustration visible across your highest-performing reels: people want to eat like your private clients, but lack the system to organize prep day efficiently.

Two more profitable paths

OPTION 2

The Athlete Macro Blueprint

What It Is

A specialized culinary guide focusing entirely on high-protein, clean-fuel cooking with calculated macro profiles, high-calorie athletic portions, and clean sweet treats.

The Difference

Focuses specifically on performance nutrition and fitness goals rather than general household meal planning.

OPTION 3

The Flavor & Technique Masterclass

What It Is

A foundational culinary video library teaching professional restaurant skills at home: pan sauces, proper protein searing, balanced vinaigrettes, and ingredient pairing.

The Difference

A direct culinary skills program for people who already have recipes but lack the cooking technique to make food taste like a private chef made it.

05 IMPLEMENTATION PLAN

If you decide to move forward, this is the launch structure we will use
